airSlate / UI → Frontend Developer & UI Tech Leader

Oct 2019 ---------- Feb 2025 (took a break)

Unicorn SaaS company providing workflow automation, PDF editing, e-signatures, document management and no-code solutions to 100+ million users worldwide

- Developed UI & functionality for products: *pdfFiller* (editor), *pdfFillerSDK*, *airSlate* (editor), *signNow* (editor), *trueEdit* (editor & landing page)
- **Refactored legacy Pug UI into React + TypeScript** across 3 major products (signNow, pdfFiller, airSlate editors) + pdfFillerSDK — incl. a monorepo split — while preserving support for legacy browsers (Chrome 49, IE11)
- **Built a UI Kit and Storybook from scratch, cutting UI codebase by >50%** and improving performance, scalability & maintainability
- Delivered clean, accessible UI covered by unit & E2E tests
- **Achieved ADA/WCAG 2.1 compliance on pdfFiller** — semantic HTML, ARIA landmarks, keyboard navigation — **saving $1M+ in potential legal exposure**
- **Led a 5-person UI/Frontend team** across signNow & pdfFiller, rotating onto other products as needed (recognized internally as a **top performer**)
- **Led technical initiatives**, conducted code reviews & interviews, shared knowledge through mentorship/presentations/documentation
