👤 _experience

insulaLabs / UI FE Developer → UI Dev Lead → UI Tech Manager

May 2025 ----- now

Creating complex UI for different products, code review, handling tough tech tasks, creating tech solutions for teams, setup of best practices

Managing small teams, aligning with managers & other teams, planning, delegating, sprint estimation, writing docs, onboarding & mentoring

Release management, deployment

Taking part in **spec-driven AI development** initiative

HTML, CSS, SASS, JS, TS, Angular, Git, Figma, Claude Code, etc.

airSlate / UI → Frontend Developer & UI Tech Leader

Oct 2019 ----- Feb 2025 (took a break)

SaaS company providing workflow automation, document management, e-signatures, PDF editing, and no-code solutions to 100+ million users worldwide

Developed UI & functionality for products: pdfFiller (editor), pdfFillerSDK, airSlate (editor), signNow (editor), trueEdit (editor & landing page)

Refactored legacy Pug components into scalable React + TS architectures

Built and maintained UI Kit from scratch for consistent & fast development

Configured and maintained Storybook for UI documentation and testing

Cut UI codebase by >50% to increase performance, reduce bundle size, improve maintainability and clarity

Delivered clean solutions covered by unit and E2E tests

Enhanced performance, accessibility, and semantics across products

Maintained and debugged existing & legacy codebases

Automated workflows with CI/CD

Led technical initiatives, conducted code reviews & interviews, shared knowledge through mentorship/presentations/documentation

HTML, Pug, CSS, SASS, JS, TS, React, Redux, Thunk, Saga, Storybook, Jest, Playwright, Webpack, Vite, Gulp, Git, GHA, JIRA, SonarQube, Grafana, Kibana, Allure, Figma, etc.

hexa / UI + Frontend Developer

Sep 2018 ----- Oct 2019

Service company providing copywriting, programming, marketing, CRM development, content management, and web design solutions for global corporate clients

Created a lot of **interactive, user-friendly, animated web pages**

Built reusable UI components for order forms/dashboards with PHP integration

Maintained & optimized a lot of legacy code

Significantly enhanced performance, accessibility, semantics of the pages

Created responsive emails & interactive promo campaigns

HTML, SASS, JS, jQuery, Vue.js, PHP, WordPress, Bootstrap, GSAP, Gulp, Git, Avocode, Figma

👤 _pet-projects

Pikamark / Chrome extension

Real bookmarks manager for new tab page. Highly customizable and functional, multilingual

React, TS, HTML, CSS (Sass), WXT, i18n, Radix, Zustand, Astro, Cursor, Claude Code (spec-driven development)
